

Higher Ed Media Coverage Bingo

Strategically-timed funding announcement	Ed-tech panacea	This policy worked well in Finland/Germany	“Political correctness”	University/college graduates get jobs!
Spurious university rankings results	Ban laptops in the classroom	Universities haven’t changed since...	Tuition fees higher than ever	Arts graduates get jobs too!
Skills gap	“Badmin”; administrative bloat	FREE SPACE	Big Data will save us from inefficient pedagogy	Neoliberalism, managerialism, corporatisation
Too many university graduates	Crisis!	Kids These Days...	Employers say grads aren’t prepared for the workforce	Sexist/racist frosh week incident
More/better data required	Millennials and/or digital natives	A university degree is/isn’t worth the money	Contract faculty issues	Threat to academic freedom

Bonus Canadian Points!

- “We don’t have the numbers for Canada”
- Someone suggests a federal education act
- “Except in Québec”
- Invocation of U.S. trend as if it applies directly in the Canadian context
- Canada “fails” at innovation
